## About This Software

VirtualDJ is revolutionary software which allows audio and video mixing right from a computer. VirtualDJ is simple and intuitive to use but do not be fooled — there are many advanced features to explore and customize.

VirtualDJ features everything you need for imaginative performance and mixing:

- Two virtual decks for loading audio and video tracks, short clips and karaoke
- Extensive browsing functions utilizing ID3 tag and custom information fields
- Comprehensive mixer with all the features that you would expect from a traditional mixer (EQ, gain, crossfader)
- Audio and video effects processors
- Linking video to audio tracks for pre-selected visual enhancement to the audio
- Sampler for recording and playing back audio clips on the fly
- ClipBank for playing back video clips on the fly
- Smart and User-Defined (IN/OUT) Looping engine
- Real-time recording of your mixes ( Audio and Video )
- Real-time webcasting of your sessions

Additionally, VirtualDJ includes many innovative features to help you spend less time with the tedious, time-consuming aspects

of DJing and mixing:

- Analysis of Beats Per Minute (BPM) and Key detection for Harmonic Mixing
- Automatic beat matching for quick mixing
- Computer Beat Grid for easy visual mixing
- Dynamic Hot Cue points

VirtualDJ is the most complete and extensive DJ software on the market today. It provides an exhaustive set of features for you to take advantage of and create great mixes. Whether you are a beginner or a professional DJ, you will find working inside VirtualDJ to be fun, intuitive and highly efficient.

Title: Virtual DJ - Broadcaster Edition

### The Baron | Unidentified Map /

### 5.01 Adventure Location: Baron Mano

**Adventure Location:** Baron Manor, Gold District, Bridgefort

**Location:** The Gold District is the wealthiest section of town. Guards are posted at both entries to the district, near Noble's Bridge connecting the Gold District to the Copper District and near the gate to the East District.

The wealth of the district is very obvious, even to the casual eye. The massive estates are surrounded by beautiful gardens filled with marble statues. There is very little crime in the area, because the criminals have nowhere to flee.

**History:** After Bridgefort established itself along the trade routes of the Drake Spine River, the merchants began to prosper. The wealthiest of the merchants began to build large estates that would rival nobility in most other areas. Along with this wealth, they were able to request additional security from the Guard, hence both entrances being watched throughout the day and night.

**Danger:** None

**Lighting:** Early Afternoon. Very brightly illuminated.

**Walls:** Stone walls exist around many of the estates, including the Baron's Manor. The houses here are old, but significantly younger than the West District. The district itself is surrounded by granite walls that are 50' tall, but the buildings are made of limestone, sandstone, and marble.

**Doors:** Solid oak doors to each of the mansions.

**Mood:** Tense. The humanoid army is known to be near and it is only a matter of time until they attack. Many of the residents have already been evacuated as a precaution. The Baron and his advisers are among the few remaining behind.

## 5.00 Chapter One: City Under Siege

### Party For Hire

The usual peaceful calm of the Gold District is shattered. As you walk to the Baron's Manor, you realize many of the houses are abandoned. The evacuation must have already started. The Baron is obviously not taking any chances with the lives of his citizens.

The Baron's Manor is far from vacant, however. Outside the manor, several messengers stand ready to deliver orders to forces throughout the city. The merchants of West District have brought their remaining military supplies in carts to prepare the soldiers and anyone staying behind to defend their property. The door is guarded by two soldiers, who open it hastily at your approach.

Inside, several voices can be heard discussing strategy from the main hall, rather than the study where the Baron usually entertains guests. The Baron has a map of the city on the table and has three advisers looking at it and evaluating the situation. As you approach, the Baron smiles.

"Greetings adventurers! It is wonderful to have you come in our most desperate hour. I am hoping to rely on your extensive abilities to help hold our city from the impending invasion. But where are my manners? Let me introduce you to several locals who have volunteered to help as well. They have been very helpful in the planning of the defenses and I value their opinions greatly."

"First, may I present Kytty Silverstar," he says, pointing

(INDEX)

Good timesink. Retro game from my childhood. Make sure you play hardcore mode.. good game but too short. a very solid and enjoyable puzzle fps. red faction-style terrain destruction tied to some clever puzzles, plus a rad force-field gun. it's good and you should buy it!. - can't control the creatures in your dungeon :(
- low copy of Dungeon Keeper
- the main story was very easy but A Game of Winter DLC was a very big pain and a challenge
- you gather Evilness only when destroying camps not units
- really we need adds that promotes Kalypso products in-game ??
- A Clash of Pumpkins, A Song of Sand and Fire and A Chance of Dragons DLC's are skirmish maps :(:(

+ A Game of Winter DLC was very nice
+ some dialogs were very funny
+ background music

If you want to kill some time is good. It's nice, but when controls give you more trouble than puzzles, you can't just leave this game without a negative review.. I literally just downloaded this game because it sounded like "toti" XD #OnlySouthAfricansWouldUnderstand. Interesting take on tower defense. The camera and your orientation can be tricky at times, but the game is pretty fun overall.. This game is fun and adorable. And great with friends. I just hope that you will be able to somehow add in multiplayer. Because not everyone has friends nearby to play this with. I still recomend this game though.

100 ONLY if !!!!! 20-49 cent - than YES get it + trading cards + me SUCKER for all things Dark that I am ;E x666
. i wonder if they are going to relece the normal Plauge Inc (the one on iphone but they are probably the same exact thing). I got this game thinking it was gonna be good and it was... for about 15 minutes. then i got stuck on a level and tried to fix it over and over again and it was never fixed. If you want a good town building game get Banished. It is much better than this piece of♥♥♥♥♥♥. It was fun while I was able to play. But today I'm in the middle of a match and boom, the game logs me out. I get sent to the login screen where I would put my email and password. I do that and it tells me the email isn't registered. So I close the game and open it again. I get back into the game only to be logged out again. I try 3 more times. Not sure what is up with that. So I give up. I can't leave a good review if I can't stay logged in long enough to play.. DO NOT BUY. Yet another example of a broken steam game. You cannot play it, but they have no problem asking for money! You need to edit the disciples.ini notepad and put the correct game path... yeah.

And the game itself? Mediocre at best. Very simple-minded combat system, hardly any skill involved, way too much luck involved. A much better version is disciples 2 but even that game is still too luck based.. Pretty nice and useful but can you add an option where you can automaticaly update the sign whenits finished ?. Nice remake of the old fluid games. Has some extra features I never saw in those though, like upgradable power-ups.

They say the AI adapts to you play-style, but I haven't seen that in practice yet...but that may just be me...

Great game if you don't know what to do for the next 15 minutes.
